** = Draft in Compliance
SPA = Sectional Planning Area
CPU = Community Plan Update

+ = The SANDAG Board of Directors adopted the Regional Comprehensive Plan (RCP) in 2004. The RCP serves as the long-term planning framework for the San Diego region that integrates land use and transportation decisions and moves the region toward smart growth and sustainability. The RCP supports more compact, mixed use development located near transit investments and concentrated in smart growth opportunity areas in the western third of the region.

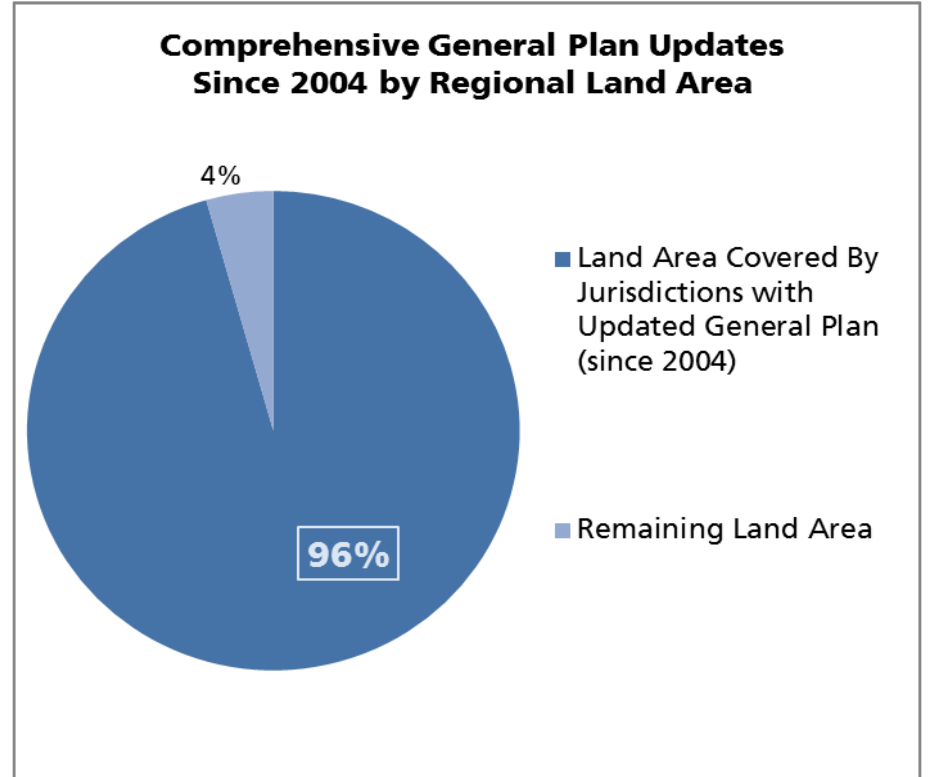

San Diego Forward: The Regional Plan...Our Changing Future

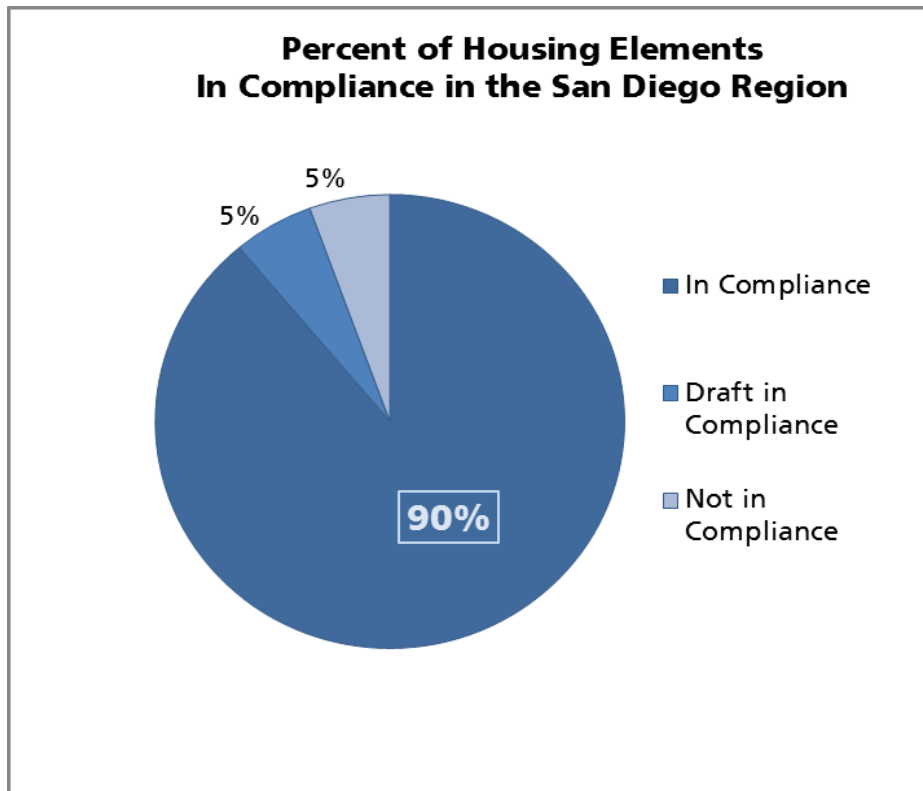

Regional Progress since 2004⁺: Compilation of Local Planning Activity Reported by Local Jurisdictions

Regional Facts and Statistics

- Currently, the San Diego region has approximately 3.15 million people, 1.4 million jobs, and 1.16 million housing units. By 2050, the Regional Growth Forecast (Series 13) projects the region will grow by nearly one million new people, nearly 500,000 new jobs, and more than 330,000 new homes.
- 10 jurisdictions have adopted or are currently performing comprehensive General Plan updates.
- 16 jurisdictions have adopted or updated community plans, master plans, or specific plans.
- 96% of the region's land area is under the jurisdiction of a plan that has been adopted or updated since 2004.

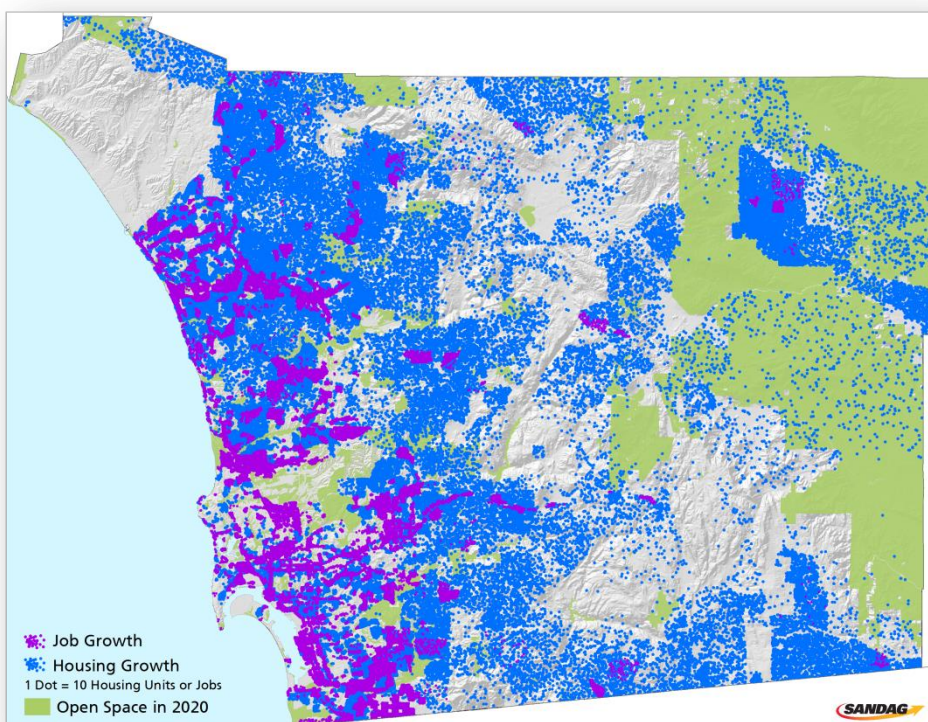

Additional Planning Efforts

- 90% of jurisdictions have housing elements found in compliance by the state.
- 13 jurisdictions have adopted or are currently developing Climate Action Plans.
- All jurisdictions have adopted or are currently developing an Energy Roadmap.
- 16 jurisdictions have adopted or are currently developing Bike and/or Pedestrian Master Plans.
- 7 jurisdictions have a General Plan Element focused on Health.
