Vision Statement

Pursuing a brighter future for all.

Mission Statement

We are the regional agency that connects people, places, and innovative ideas by implementing solutions with our unique and diverse communities.

Our Commitment to Equity

We hold ourselves accountable to the communities we serve. We acknowledge we have much to learn and much to change; and we firmly uphold equity and inclusion for every person in the San Diego region. This includes historically underserved, systemically marginalized groups impacted by actions and inactions at all levels of our government and society.

We have an obligation to eliminate disparities and ensure that safe, healthy, accessible, and inclusive opportunities are available to everyone. In 2021, SANDAG will develop an equity action plan that will inform how we plan, prioritize, fund, and build projects and programs; frame how we work with our communities; define how we recruit and develop our employees; guide our efforts to conduct unbiased research and interpret data; and set expectations for companies and stakeholders that work with us.

We are committed to creating a San Diego region where every person who visits, works, and lives can thrive.

2021 Regional Plan: Draft for Public Review

Overview

San Diego Forward: The Draft 2021 Regional Plan (Draft 2021 Regional Plan) is the result of years of planning, data analysis, and community engagement to reimagine the San Diego region with a transformative transportation system, a sustainable pattern of growth and development, and innovative demand and system management strategies. In October 2019, Governor Newsom signed Assembly Bill 1730 (Gonzalez), allowing SANDAG additional time to develop a visionary Regional Plan. Since then, the team has used cutting-edge data analytics and incorporated the latest transportation technologies to develop the Draft 2021 Regional Plan, which addresses congestion and safety on our roadways, improves social equity, and meets state and federal mandates for air quality and greenhouse gas emission reductions.

Discussion

The 2021 Regional Plan is a 30-year plan that considers how we will grow, where we will live, and how we will move around the region. It combines the Regional Transportation Plan, Sustainable Communities Strategy (SCS), and Regional Comprehensive Plan. As such, the 2021 Regional Plan must comply with specific state and federal mandates, including an SCS, per Senate Bill 375 (Steinberg, 2008), that achieves greenhouse gas emission–reduction targets set by the California Air Resources Board; compliance with federal civil rights requirements (Title VI); and environmental justice considerations, air quality conformity, and a public participation process.

The Draft 2021 Regional Plan, available on [SDFwd.com](https://www.sdfwd.com), includes projects, programs, and policies centered around three core strategies:

- **A reimagined transportation system:** Build a network and fund services that include multimodal roadways; an expanded network of fast, frequent, and low-cost transit; 21st century technology that manages the entire transportation system and connects people to on-demand services; and zero-emission options for vehicles and micromobility.
- **Sustainable growth and development:** Collaborate with local jurisdictions and fund programs that accelerate housing production while also addressing the intertwined issues of equity, climate resilience, and mobility.
- **Innovative demand and system management:** Reduce solo driving and roadway congestion through increased remote work, carsharing, vanpooling, pricing strategies, and parking-management programs that leverage partnerships and technology.

Next Steps

The draft 2021 Regional Plan is available for review and public comment through July 30, 2021. During the public comment period, SANDAG will provide opportunities for the public to learn about the plan and provide input. Six subregional virtual public open house events are scheduled for June 2021, and two virtual public hearings are planned for meetings of the Transportation Committee and Board of Directors in July 2021. A flier summarizing these events is included as Attachment 1. SANDAG is also partnering with community-based organizations that are members of the Social Equity Working Group to provide additional

opportunities for residents to weigh in on the draft 2021 Regional Plan. Comments will be accepted through an online comment form, email, voicemail, fax, and written comments mailed to the SANDAG offices.

This summer, the draft Environmental Impact Report (EIR) is anticipated to be released for public review. In late 2021, the Board of Directors will be asked to consider adoption of the 2021 Regional Plan and certification of the final EIR.
